- **Cancellation Policy:** `<textarea>`

Tab 5: Reviews and Ratings

- **Customer Reviews:** Display only, dynamic content.
- **Average Rating:** Display only, dynamic content.

Design Considerations

1. **Tab Navigation:**
 - Tabs should be visually distinct and labeled clearly.
 - Use breadcrumbs or progress indicators for longer forms.
2. **Validation:**
 - Real-time validation for all required fields.
 - Highlight incomplete fields with error messages.
3. **File Uploads:**
 - Ensure multi-file upload support with previews for images/videos.
4. **Dynamic Updates:**
 - Allow users to save drafts for incomplete profiles.
 - Enable on-the-go editing for specific sections without completing the entire form.

This structure ensures consistency and usability across all profile types while supporting the necessary customization for Peer Producers and Partners to showcase their offerings effectively. Let me know if further adjustments are needed!
